

Year 10 hospitality and catering pupils visited Crondon Park Golf Club to work with staff on events.

They completed 2 activities, the first was to set up tables with tablecloths, cutlery and napkins for a 3-course meal for a wedding taking place later this week. They worked together in teams to look at the seating plans and work out how many guests to a table and correctly set the table, their teamwork and communication was impeccable. The second task was to look at the site accommodation rooms to see what facilities they have within the rooms, they then had to compare it to a room that was missing some elements. Pupils worked together to identify the missing objects and to put them right.

Pupils then got to tour the complex to see other facilities and the catering facilities. They then had talks with the events team and the sous chef where this gave the pupils a chance to ask questions before they then enjoyed a 2-course meal before heading back to school.
