

On Wednesday 5<sup>th</sup> February. The KS3 Art club visited the Museum of the Moon exhibit in St Martins church.

*Museum of the Moon is a touring artwork by UK artist Luke Jerram. Measuring seven metres in diameter, the moon features 120dpi detailed NASA imagery of the lunar surface. At an approximate scale of 1:500,000, each centimetre of the internally lit spherical sculpture represents 5km of the moon's surface.*

Pupils were encouraged to explore the installation, by listening to the accompanying soundtrack and laying underneath the structure. In addition, the pupils could draw and respond to the art work. We will be developing the art works in the next Ks3 art club!

An exciting opportunity for our pupils and people of Basildon.

Museum of the moon is available to view by all until February 22nd. Book your free tickets via the Towngate website.
